

OLOBIO

NEUTRALIZER OF BAD ODORS

OLOBIO is an agent that destroys bad odors from organic sources, in the form of an aqueous solution that prevents the formation of malodorous components resulting from biological degradation.

Properties:

- Active destroyer of malodorous molecules
- Contains a lingering fragrance, which leaves a pleasant smell
- Safe to use
- Suitable for home and professional use

Applications:

- Household trash cans
- Garbage containers
- Garbage rooms
- Animal urine
- Smelly sinks and showers
- Street sweeper

Features:

- Physical aspect: Clear, slightly green/bluish solution.
- Smell: slight smell of honey/almond
- pH: 3
- Density at 20°: 2.6-3.2

USER INSTRUCTIONS:

- OLOBIO is a contact product. It must be applied to the source of bad odors
- Garbage cans: apply with a spray to each new addition of waste, impregnate them well
- Containers, garbage rooms: apply to walls and containers that have been in contact with waste.
- Urine: apply to urine or remains after cleaning
- Sink, shower: pour a small amount into the sink or shower, with a little water.
- Street sweeper: add 0.5% of OLOBIO to the water tank, i.e. 5L of product for 1000L of water.
