ECO-STRIPS LAUNDRY DETERGENTS

by  Natulim

The Smartest Way To Wash Clothes.

ECO-STRIPS are small biodegradable strips of ecological detergent, which are simply put in the washing machine. Each wash strip has ultra-concentrated, hypoallergenic cleaning power, which leaves your clothes clean, soft and fragrant without the need for fabric softeners.

Its low-foaming washing formula finds and dissolves stains, both on white and coloured clothes. It works in hot or cold water and in all types of washers, including high efficiency (HE) ones.

BIODEGRADABLE

HOT OR COLD
WATER

VEGAN &
CRUELTY-FREE

WHITE OR COLOR
CLOTHES

ZERO WASTE

FOR ALL
SKINS

SUITABLE FOR THE MOST DELICATE SKIN

Our goal is to put your family first. So our strips are suitable for the most sensitive skin. That is why our detergent is:

- **Hypoallergenic**
- **Paraben free**
- **Phosphate free**
- **No added colorants**
- **Chlorine free**
- **Dioxane free**
- **100% Biodegradable** (no residue)
- **Vegan:** no animals have been used for production or testing

WASHING IN 3 EASY STEPS:

1.

PART THE STRIP

2.

PUT THE STRIP IN THE WASHING MACHINE

3.

ADD THE CLOTHES

REDUCED ECOLOGICAL FOOTPRINT

More than 80% of liquid detergents is water. There is no reason for having to send water up and down.

A box of Natulim weighs less than 100g. This reduces fuel consumption in transport and CO2 emissions by 94%, compared to liquid and powder detergents.

In addition, our packaging does not use any plastic and is 100% biodegradable. Small actions make a difference. Imagine what we would achieve if we all moved to Natulim.

CONCENTRATED CLEANING POWER

With Natulim you can wash clothes in a more ecological way without sacrificing cleaning power. We have not done any trimming with Natulim strip detergent.

Each strip of detergent without liquid Natulim has the same power as any liquid detergent or powder of known marks. Experience a cleaning power that:

- Removes the toughest stains
- Maintains vibrant colors
- Restores radiant whites

THE LIGHTEST. SAVE SPACE

Take back your closet space! Traditional liquid laundry detergent and powder detergents take up valuable closet space. In addition, Natulim strips are very light. No more loading kilos and kilos of detergent when you go shopping.

Natulim package measurements: Length 15cm x Width 12cm x Height 2cm and only 78g of weight.

FREE OF PLASTICS. ZERO WASTE

More than 1 billion plastic detergent bottles are dumped in landfills around the world each year. Not with Natulim!

Our cardboard box is 100% recyclable, and we do not use unnecessary plastics for shipping.
